It's the Atacama.

#### 4 Read and complete.

arid drought floods glacial ~~hurricanes~~ snowstorms

In Puerto Rico, devastating 1 hurricanes with strong winds and heavy rain arrive from the Atlantic Ocean. The rain can cause 2 floods.

In the centre of North America, on the east side of the Rocky Mountain Range, there isn't much rain. Long periods of 3 drought make the landscape 4 arid.

The Arctic region of North America is very cold. The climate is 5 glacial, with winter temperatures of around -30°C! There are 6 snowstorms with violent winds.

#### 5 Read and complete. Then circle.

- 1 The Antarctic / Arctic is the windiest (windy) place in the world.
- 2 The north-west / south-west region of the USA has got the sunniest (sunny) climate.
- 3 Mount Fuji / Mount Teide is the most famous (famous) volcano in Japan.
- 4 Table Mountain, in South America / Africa is one of the most incredible (incredible) natural wonders.
- 5 Patagonia, in Argentina and Brazil / Chile is one of the most beautiful (beautiful) regions in South America.
- 6 The Amazon / Sahara is the most important (important) rainforest on Earth.

#### 6 Read and order.

- a 1 One day, I'd like to sail on the Nile.
- b 5 Why not?
- c 3 Because I think it's sunny and beautiful.
- d 4 Really? I wouldn't like to sail on the Nile.
- e 2 Why?
- f 6 Because I think it's too dangerous!

#### 7 Read and reflect. Circle a number.

##### Think about Unit 2

- |  |                |
|--|----------------|
| I can remember and use the vocabulary in this unit.      | ☹️ 1 2 3 4 5 😊 |
| I can read and understand the texts in this unit.        | ☹️ 1 2 3 4 5 😊 |
| I can understand and use the grammar in this unit.       | ☹️ 1 2 3 4 5 😊 |
| I can talk about climate and extreme weather conditions. | ☹️ 1 2 3 4 5 😊 |

Why don't you tell your family about the natural wonders in the unit? Does it help you remember them?
